Zipline Kapan - the longest and the highest zipline in Armenia

The total length of the zipline, which consists of two parts, is 1750 meters, the length from one point to the other is 1080 meters. This zipline is longer from the ziplines of Yenokavan (750 meters) and Yerevan (nearly 870 meters). The project engineer said this zipline differs from the other ones with its length and location as it passes over the town. In other words, the tourist will pass over the buildings.
The specialist said there is no problem with the safety. The works have been carried out at the highest level.
The zipline project is the first major investment program in Kapan in 2020.
