The Chukars Trail-Hiking

Arpa Protected Landscape "ARPA" Environmental Foundation

The Chukars trail, which starts at Khachik village, includes two different zoning areas, ranging from highland sub-alpine green vegetation's zone to semi-desert – rich vegetation's zone. This trail is crossed with the Bezoar trail. Along the way, it is possible to spot birds, such as chukars, hoopoe, bearded vulture, if you are careful, because these birds run away very quickly by the sounds of people's footsteps.
